

Firefighting is dangerous even as a volunteer firefighter I almost died twice. In a house fire when there was a hole burnt the floor and a red-hot furnace below and another time on top of Joe's bike shop in the dark next to burning Handy Hardware with red-hot beams and turpentine and paint cans exploding and they accidentally pointed the water stream on us and we had to hang onto the shingles to keep from falling into the exploding inferno.

The fire of 62' burned down the entire building in less than an hour.

Busch school had one of these escape shoots. The fire call boxes came and went in the 1960s because of too many false alarms.

Firefighters and police were often risk their lives for people who don't even appreciate it. Sometimes firefighters and police get attacked while risking their lives for someone else.

It is very important to have more than one good quality working smoke detectors in several places in your home. Also have a good quality CO alarm. Avoid natural Christmas trees as they dry out and easily burn and the fumes will kill you not the fire because they explode in flame so fast you do not have time to escape. Professor Wesley E Arnold's Historical Educational Archive of Center Line-Warren Area History for 30,000 + pages of information. Now a community project available to teachers for free, as is this concise summary. See <http://dogoodforall.today> or <http://warrenhistory.us> to see, save and print anything and the price is right FREE.

There was no fire dept for nearly all of the history of our area. Only since the forming of a village was there any fire protection and that was next to useless until water mains with fire hydrants were activated. If the oil lamps or candles used for lighting caught the house or barn on fire all one could do was get out and try to save a few valuables. Everything you had would be destroyed. There were no phones. The Warren Volunteer Fire Dept was organized April 4, 1926. It secured a Model T chassis and equipped it for firefighting. Later a second Model T was equipped with chemicals. Later a Ford V8 truck was added with a 350 gallon tank 2500 feet of hose, ladders, hand extinguishers, axes & suction pump. It was housed in an east addition to the township hall on Beebe Street. The Center Line Fire Dept began in Dec 1925 when the village approved the purchase of a 1926 Ford/ American LaFrance fire engine. These engines had chemical tanks. Later pumps were added to pump water out of cisterns. Telephone service which went to Detroit and then to a small Warren telephone exchange not staffed at night. There was no dialing of numbers everything was done through operator on a party line system which may have 9 or more phones on one line. Often it took over an hour to get the call to the fire chief. Many homes and barns burnt to the ground in minutes before and after fire departments were started.

Here are a few pictures from my time as a volunteer fire fighter with the Center Line Fire Department and Center Line Goodfellow. I remember being woken up in the early morning hours by the alarm sounds on the fire radio. It had three loud tones. I got so used to responding quickly that I was usually half out of bed by the third tone. Then you had to listen or directions to the fire. We had lights and sirens on our cars but only used them when needed. Two fires stand out both of which I almost died in. The first was a house fire with a lot of smoke. We know that kids often hide in closets and under beds in a fire because they are frightened. Part of our job is to get them out before the smoke kills them. (Most people die from the smoke not the fire) Anyway I was inside the smoke filled house when my face mask fogged up. Now if you can't see anything you are blind. So I went back outside cleared the mask and reentered. I discovered that if I had taken one more step forward when my mask was fogged up that I would have fallen thru the burning floor onto the red hot oil furnace which was causing the house fire. Another time we were on top of Joe's Bike shop fighting the Big Handy Andy Hardware store fire. It was 3 AM in the morning. The sky was filled with smoke and it was dark. The roof beams just a few feet from me were red hot and twisting. Exploding paint and solvent cans were going off like bombs. The hoses at the top of three big ladder trucks were spraying towards the fire when one of them changed angle somehow and started spraying us and pushing us into the inferno. The operators couldn't see because of the smoke and darkness. We had to drop our hoses and hang on to the shingles for dear life for a few minutes to not get swept into the flames and red-hot twisting steel beams. The purpose here is not that I am pretending to be some kind of a hero and it is the same reason I wear my Veterans cap. I am not a hero but I had the honor of serving with some. I was just doing my job as a volunteer. My purpose is to say we should honor our firefighters and soldiers because they put their lives on the line. All gave some and some gave all.

Do have a 2 working smoke detectors and a CO detector and don't use natural Christmas trees as they dry out easily and become fire bombs you cannot escape from. The fumes will kill you.

Fire Department - 1961

When that screeching siren calls our fire-fighters to action, these are the men who will respond at any time of day or night. Standing in front of a most capable piece of equipment we find also capable regulars and volunteers flanking Chief Lyerla (white cap) left to right; Norman Desimone, John Radtke, James Mainero, Sgt. Richard Carney, Sgt. William Desmone, Lieut. Nelson Bruechaert, Chief Lyerla, Lieut. Ralph Reiterman, Sgt. Norman Smith, Sgt. Vincent Grobbel, Joseph O'Lear, Robert Widman, Gustino Sciotti, Guy Swanson; kneeling: Harold Helberg and Anthony Meduvsky.

The Warren Volunteer Fire Dept was organized April 4, 1926. It secured a Model T chassis and

equipped it for fire fighting. Later a second Model T was equipped with chemicals. Later a Ford V8 truck was added with a 350 gallon tank 2500 feet of hose, ladders, hand extinguishers, axes & suction pump. It

was housed in an east addition to the township hall on Beebe Street.

Thereafter individual pieces of equipment were added yearly.

Need information on people above. There is more on the DVD.

Warren FD Clowns do a lot of good.

Firemen risk their lives every day for us. Having been one I can say this job is risky and sometimes real tough. We owe them gratitude and respect.

To Right: Joseph Sharp; Earl Hartsig; Chief, William Van Hulle; Supervisor, Earl Tallman; Chester Skarupski; Lawrence Dolson; Charles Consigney.

Warren Fire Dept had 25 vehicles some shown here at Tech Plaza SS Kresge in background. 1961 Warren installed over 300 fire call boxes strategically located at schools, shopping centers and main intersections to provide direct communication to fire and police departments. The Green Acres shopping center and Pampa Lanes were two big fires. As more and more people got phones and because of a high volume of false alarms the boxes were discontinued in 1964. In the 1961s the WFD had about 109 employees.

Apparatus Building was built in 1929.

There was no fire department or police department for nearly all of the history of our area. Only since the forming of a village was there any fire protection and that was next to useless until water mains with fire hydrants were activated. Until that time if the oil lamps or candles used for lighting caught the house or barn on fire all one could do was get out and try to save a few valuables. Everything you had would be destroyed. And there was no insurance. There were no phones to call for help. There was a volunteer fire department in Warren of sorts since probably the 1850s. First it was just farmers who would bring buckets and rush to a fire by horseback when they saw smoke in the sky. The history of the Warren Volunteer Fire Department was not written down so is mostly lost. There may have been a portable pump which could pull water out of a well or pond and spray it on to a fire or compressed air tank with chemicals in the tank. The village hall was built in 1922 and a shed built next to it in 1925. The Official Warren Volunteer Fire Department was organized April 4, 1926. It secured a Model T chassis and equipped it for firefighting. Later a second Model T was equipped with chemicals. Later a Ford V8 truck was added with 350 gallon tank 2500 feet of hose, ladders, hand extinguishers, axes and suction pump. I am still looking for early records. In 1944 the Chief was George Shoop with Leo Roth, ND Eckstein, Floyd Rickabush, Peter Trombly, Ernie Steffens, Ray Lutz, Merton Lyons, Harold Squier, John Taylor, Don Cockerline and Howard Lyons. It was housed in an east addition to the township hall on Beebe Street in 1946. Where it was before is unclear, but in 1992 the fire department moved out of the Beebe Village hall. In 1938 Chrysler Corporation donated a truck chassis. This was taken to General Detroit Fire Truck Corporation at 2272 East Jefferson and fitted as a fire truck. It was delivered to Warren Township on February 25th, 1939 and stored at Charles Blazier's Service Station at 21708 Van Dyke. George Schimmel converted his old gas station at 22730 van Dyke into a fire station and leased it to Warren Township. On May 20th 1939 the fire truck was moved to this station and became fire station No 1. In 1939 Warren's first fire station was built. Vern Lumex and William Van Hulle were hired as fireman. They still had volunteer firefighters. The Warren Fire Department went from all volunteer to two full time firefighters to a high of 184 in 1980. On May 20th 1939 William Vanhulle was named Fire Chief and Vern Lumex was appointed Firefighter. Tenmen were assigned as volunteer firefighters by Township Supervisor William Strich. Training began on May 12st. On June 15th 1939 the fire station was officially open to serve all of Warren Township.

Two Warren firefighters have lost their lives. **CHARLES COGSIGNEY DIED 7/16/1944 Died in a barn fire.**

HENRY K MORAN 1942-1973 involved in a car accident. He suffered closed head injuries and had to be confined to a nursing home.

In 1938 Chrysler Corporation donated a fire truck. In 1939 a fire hall was built next to the old township hall at Van Dyke and 11 Mile roads. Fire Station No 2 at 13360 Nine Mile Rd and Fire Station No 3 at 23630 Ryan were put in operation on September 7th, 1949. 1951 Van Dyke Fire Hall was built and two more fire halls were built. In 1955 the Nine Mile and Federal fire hall was built followed some time later by the fire hall on Twelve Mile Road by Common Road. The Ryan Station was built later.

William B. Burr was appointed the City of Warren's First fire Commissioner February 5th, 1957.

standing from left to right: Walter Malen, Jim Ritchie, Lt. Larry Dolson, Chief William Van Hulle, Capt. Earl Hartig, Donald Cockerline and Adam Torgler. On truck from left to right: George Carlu, Ray Brown, Oscar Behnke, Bob Wiley, and Melville Nepper.

Below is young Ted Bates. Eleanor Bates remembers he got \$3.00 a call. The Village of Warren Volunteer Fire Department at 5961 Beebe St was put into operation as Station No 4 and 16 volunteer firefighters were given the position of regular paid firefighters On May 17th 1957. Station No 5 was dedicated On Oct 11th, 1958 in Honored memory of firefighter Charles Consigny of the Warren Township Fire Department who gave his life in the line of duty on July 16th, 1944. Station No 6 at 3090 Twelve Mile Rd was put in operation on February 1st, 1967. The new Fire Station No 3 on Ryan near Stevens replacing the earlier station at the same location, was put in operation on May 22nd, 1986. This was dedicated to the "First Chief William Van Hulle who served from 1939-1963. The new Station No 4. was put into operation in 1991 and dedicated to Assistant Chief Henry Moran (1942-1973). The new Station No 2 and Administration building at 23295 schoenherr Rd were put into operation in 1991 and dedicated to Fire Chief William Vahhulle. Vern Lumex and William Van Hulle 1939 only two firemen. William Van Hulle was chief for a long time H Reineli Commissioner and C Cockerline Chief in 1967

The first official land buyer was Charles Groesbeck in 1830 followed by Charles Rivard in 1831. Then Charles Rivard bought more land in 1833 and 1835. Fabian Rivard bought land in 1833 followed by Victoire Rivard in 1837. That is as far back as one can go unless you were an Indian tribe member. The Rivards were prominent in Center Line history as early settlers, farmers and operators of several businesses including a General Store, hardware store and Ford dealership. What you see here is just a little bit. Credit to Mike Grobbel for everything here except Buechel store. Credit Harold Stilwell for that.. He has much more on Rivards see his website at grobbel.org Also more in Center Line archive.

This old building was once the 'trading post' over at Kunrod's Corner, State and Ten Mile Roads. Owned and run by John Buechel, it was moved to Van Dyke when the business section was growing along Van Dyke. It received a new outer coating of red bricks, and provided living quarters for the Buechel's family upstairs. Later purchased by Aurelius Rivard. He ran the grocery store, rented the upstairs until purchased by St. Clement Church. It was demolished in 1959 and with it went one of Center Line early buildings.

Leviathan

In 1868 the Central Pacific Railroad purchased four locomotives from the Schenectady Locomotive Works. They were; The Jupiter #60, The Storm #61, The Whirlwind #62 and the Leviathan #63.

This was a typical wood burning locomotive used in the 1800s before the supply lines for coal was set up. Years later diesel oil fueled locomotives were found to be more efficient and less labor intensive.

The state road (now Sherwood) was dirt which became at times seas of mud or axel breaking holes. So businessmen in Detroit built a wood rail, rail road in the 1840s. Later the wood rails were covered with iron strips. The first cars were horse drawn. The Detroit to Bay City railroad opened for traffic in Oct 1872. The Warren Station was at 10 Mile road. The Spinnings Station was at 14 mile road. Oakwood Station was at Chicago Road. The Grand Trunk on the east from Detroit to Port Huron went thru Warren in 1859. Thomas Edison was a newsboy and candy seller on this line. Steam tractors had wide use from 1880-1918.

Trains went to thousands of places.
Relaxing ride, rest rooms, food served.

Called the Daylight 4449
American Freedom Train

Sight Seeing
Dome Car

Diesel Locomotive

Train travel is best.
Walk to dining,
lounge, sleeping,
dome, snack cars
Enjoy beautiful
changing scenery

Coal burner

Leviathan Wood burner

Wood burner steam engine

Much historic travel was done by what is still considered the best and most relaxing travel vehicle the train. It is still the best because a person can relax and enjoy the scenery, use the restroom anytime, walk around, visit the sight seeing dome car or snack car or dining car Or even go to sleep in his own bed in a private room. There are no long security lines to go thru to board the train and trips are seldom canceled due to weather. Just lay back and enjoy the scenery or read or watch a video.

Train travel is the relaxing way to go. Nice ever-changing scenery, Dining Cars, Lounge Cars, snacks, Dome Cars, Private Bedroom Lounge Cars with private rest rooms, Good company.

1920s-1940s

For several years after the WWI things were hard to get. Building slowed down. This war was followed by a great depression from 1929-41. Some sources say the bankers actually caused the depression. The average family was hard hit by this. Families had trouble buying necessities such as food because of lack of income which was not their fault. Warren had 60% unemployment per Harold Stilwell. People were glad to get \$5 a week. People sold apples on street corners. People had to do without. People did what they had to do to survive. Many were homeless. President Roosevelt instituted programs like Work Projects Administration WPA providing public jobs. Many people benefited from these. In 1930 Birdseye marketed frozen foods. Movie industry peaked 1930-45. The Liberty^[75] Theater opened in Center Line with a \$8,000 organ. Some families raised chickens, turkeys and rabbits (chickens and rabbits eat most anything including insects, table scraps, weeds). Families had their own small crops of corn, beans, onions, berries, vegetables also fruit and nut trees. Most farms had windmills to pump water. Many people had their own wells. Water quality was good, but with^[76] increasing crowded conditions it was safer to use water from the village water system. Local grown food is better and safer and costs less than imported food. Fish can be grown in small ponds. People learned to be self sufficient. Wood stoves were labor intensive with free cooking, heating if there was source for free wood. It has been said that a more country environment was better for kids to grow up in rather than urban as hostile urban cement, smog, traffic, overcrowding and the increased artificiality of life away from nature and the reality of where food comes from, is not as friendly and nourishing as life in the country.

The ice man would come by every couple of days and the kids loved him as he would offer little pieces of ice to them. (Great in the summer). In Center Line our guy just had a wagon and a canvas tarp over the ice. In the country people had ice houses which was usually a slightly underground hut insulated with sawdust. In the winter people would go to lakes and cut ice to fill an ice hut. This was necessary as there were no refrigerators until the 1940s. A lot of children and even adults died of summer complaint a condition causing diarrhea caused by spoiled milk. There was no trash pickup. You burned or buried what you did not use. Below Cutting Ice, Tongs, Ice man.

Cutting ice on lake, ice tools, saws tongs, ice horse shoes. Ice box, Ice man.

Before electric lights the oil lantern was the portable light of choice as it was safer than most other lights.

Harold Stilwell was a printer and publisher

Our Victrola was a wind up record player using no electricity. It played loud enough to be well heard. Kids had extra fun adjusting the speed making voices higher or lower. ^[77]

Warren Review

**We were
attacked
thousands
died.
Many
suffered.**^[81]

World War II 1937-1946. 404,997 Americans were killed, 15,000 from Michigan (John Kern 57) The Detroit Arsenal in Warren built 36,000 tanks. Hydromatic built ship guns. There was great need for workers at these plants and a big shortage of housing, and schools. The Germans and Japanese abused & killed innocent people and our POWs. They would starve^[82] prisoners to death while making them work. They would cut people open in the abdomen and leave them for days to die a slow death. They used innocent civilians for bayonet practice. There is no excuse for humans to treat others with cruelty. We must have a code of human conduct. Humans must be Humane and cause no harm by their actions or inaction.

Warren became urbanized by the tremendous population growth and industry. We built schools, roads water mains and drains and a sewage treatment plant. There were so many people brought in and moving here that there was no place for them to be housed. The government took over land, created jobs, put in temporary housing and built schools then paid the people to work in the tank plant. Many males went to war & many women went to work in the factories. They did outstanding work. Prisoners of war were seriously over-abused and^[83] 300,000 civilians were murdered by the Japanese. Read about the 200,000 Rapes in Nanking by the Japanese..

Victory school built of block with tile walls near the beautiful Ellis school. Kramer school was added to the redwood Kramer homes housing project. Later residents bought out the government homes and formed Kramer Homes Cooperative.^[84]

The GM Tech Center began in the late 1940s Many industries were started. Television broadcasting began March 4, 1947 by WWDT TV to the 2500 TV sets in Detroit area.^[85] Almost every family worked and easily bought a car. With TV social and community alienation began. The number of bars surpassed the number of churches. Crime was low because most everyone worked, pulled their own weight and were raised to be responsible for their actions and they were. In 1950 Warren became a charter township. Population was about 43,000. It became a City on Jan 1, 1957. Garbage collection started in 1953. Gerald Neil stated about Warren "During the early 1950's it became known as the largest, most heavily^[86] populated, and wealthiest township in the United States." The farmer's fields were almost all gone. Horses gone. Livestock was banned. But the automotive industry and related sub industries like Tool and Die shops sprung up all over.^[87]

Blimps called rubber cows protected the locks in Sault Ste Marie with chains.

Scouting

The New York Times accurately proclaimed that Detroit was the “Rum Capital of the Nation” and that liquor trafficking was Michigan's second leading industry. (Lawrence E. Ziewacz 228) Warren and Center Line often had more bars than churches.

We need our police officers. Having been one I can tell you it is not easy or for cowards. We owe them our gratitude and respect as they put their lives on the line daily. When you call that can be for you

Warren's Oldest Indian and Pioneer Cemetery was used for fill dirt.

In the 1800s there were no grave stone makers in Warren There were no funeral homes. The body was laid out at the family home for friends to see. Sometimes a coffin was constructed but that depended if there were planks available and someone who had a saw and was skilled enough to make one. Many were buried without a casket or marker on the farm as there were few cemeteries around. Families often did not have money to pay for a cemetery lot. Often several family members died within a short time due to diseases we now have cures for such as scarlet fever, cholera, diphtheria, typhoid fever, small pox, etc. Both the 1854 St Clement and 1845 Warren Union cemeteries appear to be preceded by the Bidell-GreenWeier Indian Cemetery but no one knows and it is not important. This was located west of Bunert and North of Martin. Here is a foto. During construction of Briarwood School a skull and other human bones were discovered. (Per Tri City Progress 4 14-1967) In May of 1969 children playing in the school playground discovered more human remains. Imagine the look of shock on the teachers face when they brought the remains into the classroom. One contractor dug a load of dirt for fill dirt and dropped it off on someone's property. **The homeowner receiving the fill dirt saw human remains** and called the police who contacted the contractor. Imagine asking for fill dirt and getting human remains dropped off in your driveway. The funeral director William Duross told historian Wesley Arnold that Theuts, Greens, Hessels, and Schoenhers were probably buried there. So it was for sure a pioneer cemetery. He removed around 40 remains which were placed in three cement vaults and buried in the Mt Clemens Clinton Grove Cemetery.

Mt Olivet (opened in 1888) down Van Dyke, Mt. Elliott opened in 1841 but to farmers in Warren village that was a long trek with wagons especially if the weather was bad or in the Winter. The St Clement Cemetery is located on Engleman east of Van Dyke. The first known recorded burial was in 1854. Staff members of many cemeteries have stated and records show 451 child and 299 adult burials before 1898 of which only 28 markers now show a child burial. That gives a ratio of 1.5 child burials for each adult. There were 17 scattered years when there were about twice the children buried than adults. 5 years had about three times the child burials. One year had 12 times and one year 4 times. This is from their records and is verifiable. The biggest problem was that records were not kept.

Warren Township had four cemeteries Warren Union, St Clement and Bidel-Green-Bunert-Indian near Bunert and Martin. Bidel ended up in a school yard with children digging up remains and human remains being dumped as fill dirt. Wesley Arnold has written 16 books about above three cemeteries. Detroit Memorial Cemetery with mostly Detroit residents came later. The old cemeteries have some interesting epitaphs: **Behold and see as you pass by, As you are now so once was I, As I am now you soon will be, Prepare thyself to follow me. Use time wisely waste it not, As soon this to Will be your lot.** This could be at Brookside Cemetery. I have indexed 7 cemeteries.

Morehead Charles Adair 1865 age 24 inscription unreadable now, but it may have said **Do good while there is still time before it is too late.**

There were no Police officers for most of the history of this area. It was rule by brute force. In 1818 when Macomb County was formed an office of sheriff was created. He had under him depute justices of the peace and locally elected constables who assisted the Sheriff. In the early 1920s the Sheriff established a Warren branch office with one and sometimes two regular officers and a few special deputies. In April 1927 the Town board appointed Ray Bush as Township Officer to work with the Sheriff's deputies. In 1937 Max Bookout and George Collins were appointed as our first Policemen at \$175 per month. Collins was appointed as Warren's first Police Chief. At first they did not even have an office or station. A shed was used as a jail. Detroit Edison began putting in electricity in the early 1900s. By 1922 there was a Radio in most homes and 7 Michigan stations. Telephone service began around 1920 but was not in all areas. Sewers were put in. Natural gas service arrived in the late 1920's. In 1928 water service from Detroit was started in Warren. Most of the growth area was in southern Warren south of Eleven Mile road. **Center Line wanting a fire department, water and sewers voted to become a village in 1925 and a city in 1936.** The area went from rural to urban with a huge growth in population.

UNKNOWN
SOLDIER

Actual words that were on the granite stone as it was stolen from his grave before I could get a picture of it. He was known at time of death but the name has been lost as records neglected.

Warren Union Cemetery is one of many older cemeteries which have many unmarked graves. Many of the old stones have crumbled. There are actually hundreds of stillborn, and other children buried here. Child & infant mortality rates were high. Before 1917 there were many more child burials than adult burials. Our sister cemetery shows almost 2 child burials per adult burial. Only a small percentage of pre-WWII child deaths were even recorded. Pioneers were farmers and did not have money to buy markers and there were no local stone cutters. This cemetery was mostly filed up before WWII. At least six memorials have been stolen by grave robbers including: the beautiful Unknown Soldier Memorial, and also the only memorial which named Warren area soldiers buried here, a Children's and Pioneer memorial and even an epitaph stone ripped off of a grave. We veterans feel our soldiers have been disrespected. The grave robbers have stolen the only stone with our soldier's names, legacy and history needed to educate our young people (who are no longer taught our history in school) and the grave robbers dishonored hundreds of children who died painful deaths when they stole the Children's Memorial. Soldiers fought and died.(some were only 19) Don't they at least deserve to have their name on a stone in their home town. That was the only stone that had their names on it for future generations to see. We veterans feel it is wrong to steal gravestones they don't own from a grave they don't own from a cemetery they don't own. We veterans feel it is wrong to steal the legacy of our boys who gave their lives for us. (See Macomb Daily July 15, 2011, WWJ News, police reports which indicated Oz Zamora, Rich Hechler and Sue Keffler were behind the grave robbings not the Historical Society, Village or Historic Commissions.) And they admitted to it in a public meeting. We veterans want them to return those stones because we should honor our soldiers who gave their lives for us.

Historian Professor Wesley Arnold spent years doing research research on Warren Union Cemetery, St Clement Cemetery and others writing books on them all available to you for free at dogoodforall.today

It is a terrible fact that local history and records are neglected by so called historical societies who are often social cliques. That is why he created a free historical archive soon to contain over 30,000. Below is St Clement Cemetery

My Free Educational Historic Archive now has 27,092 pictures and 30,000 pages and is growing and already has been accepted with high praises in several University libraries, local libraries and State Archives going to Library of Congress soon. All published and given out for free. See <http://dogoodforall.today>

This is a simulation of the stone as the real one was ripped off of the grave by disrespectful vigilante grave robbers before I got a chance to photograph it.

The Unknown Soldier of Warren Union Cemetery

Back in 1938 The Detroit Society for Genealogical Research did a detailed walk thru of Warren Union Cemetery. They noted that a flag indicating a soldier's grave was located in strip 20 and in the fifth plot. This is now located to the North of the Davy plot and to the West of the Heartsig plot of strip 21. As a historian I had been told that there was an unknown soldier at Warren Union Cemetery. The soldier buried there was not an unknown soldier at the time of burial. He certainly is now because no one alive knows. In fact even the record of the entire family was destroyed in a flood that wiped out the records held in the church basement. Because the family was too poor no stone with a name was made. Two disrespectful vigilante grave robbers ripped that stone off of the grave along with another from another place which was the only stone which listed our warren boys who died.

We should honor our soldiers because: First we soldiers had the guts to stand up and defend our freedoms for ourselves and our children and you. If we had not come forth and risked our lives you would be speaking German now and not enjoying the freedom we now have. Have those gutless cowards who don't think soldiers should be honored ever saw one of their friends killed by an enemy, or had to pick up his body parts and put them into a body bag, or accompany his casket home and be there with his family, or been shot at, or suffered the pain, suffering and horror and hell of war? Then how lucky you are and it is because of us soldiers who fought for you.

I was at a parade when the American Flag went by and everyone remained seated except for a crippled veteran in a wheel chair and myself an old veteran. We both stood and saluted our flag of freedom.

We want the Warren Historical Society to replace those two stones because it is the right thing to do to honor our boys who were killed defending our freedom. And we call them boys because many were still in their teens.

There is an outstanding volunteer who has labored here since about 1997. He is Tom Turmel. He took weed covered grounds with very few trees and planted grass, added colorful trees, shrubs and flowers. The beauty you see is his work. Many pioneer, pauper, baby and child graves were never marked with an engraved stone. Older cemeteries in Michigan have many unmarked graves often more than surviving stones indicate. Even today stillborn and day old baby graves are seldom marked. The child and infant mortality rate was high. Before 1917 there were many more child burials than adult burials. Our sister cemetery shows almost 2 child burials per adult burial. Only a small percentage of child deaths were even recorded back then. Also our pioneers did not have money to buy markers and there were no monument makers nearby. Most of the adult pioneer graves are unmarked. The older part of Warren Union Cemetery was considered full before WWII. Families had and buy plots elsewhere. At least eight memorials have been stolen by grave robbers. See Macomb Daily July 15, 2011 Including: the only memorial which named Warren area soldiers buried here; and the beautiful Unknown Soldier memorial; and the memorial honoring all veterans and victims killed in attacks on our country; and The Children's and Pioneer Memorial honoring the many who have no marker: and an epitaph stone ripped off of a grave; and also one telling what our flag stood for. We veterans feel our soldiers and victims of attacks have been disrespected. The two grave robbers have stolen our soldiers and country's history needed to educate our young people who are no longer taught our history in school and dishonored hundreds of children who died painful deaths.

I need help on these.

I requested help on these from Warren Historical Society a year ago still no help from them.

Village View Peck Farm

Some of what first pioneers saw is visible around Bear Creek today. The best use of this wilderness is to make it into our nature center for our children as it is already useless unsellable “wetland” and it has Warren’s biggest most historic mansion which would be the perfect nature center building.

See archive for many more pictures

The Osowski Estate, at Mound Road and 12 Mile in Warren, was built in 1935 by Dr. Felix A. Osowski.

Efforts being made to save historic home

By JENNIFER SAKEY
C & G STAFF WRITER

Barely visible behind a line of trees at Mound Road and 12 Mile sits a piece of local history that may be destroyed.

The Osowski Estate, a 3,300-square-foot Tudor mansion built in 1936, may be torn down if a buyer is not found who can renovate it and use it commercially. Local

said preservationist Patricia Hallman of Shelby Township.

Hallman first became aware of the house when her friend, Tom Turnel of Warren, saw a rezoning sign on the house's property and began attending Planning Commission meetings to learn more about the future of the site. He found that the property was the

light industrial use.

Hallman then decided to do research on the house and became fascinated with its history.

She learned that the home's original owner, Dr. Felix A. Osowski, was from a successful Polish-American family. He was a doctor and surgeon for 34 years in Detroit and had a wife and three

Young's Garden Mart & Christmas Fantasy 27825 Ryan Rd. The Young family began farming in Warren in 1923. They grew crops and trucked them out to farmers markets. They were ahead of their time when they built a greenhouse in 1924. This enabled them to offer more plants earlier and later. They built a retail store here in 1957. There was a man in Warren who was raising the ire of neighbors due to his desire to make big Christmas decorations causing much traffic in his neighbor-hood. Youngs solved that problem and benefited from the increased traffic at their business on Ryan in 1985. They^[108] expanded the Christmas decorations adding a Santa Castle making their store into a Christmas Fantasy land complete with Santa hearing children's requests. Over the years it became quite an attraction. Young's Santa Castle was displayed 1985c2007.at Young's Garden Mart and Christmas Fantasy on Ryan N of 11 Mile. The work of installing the heavy plywood castle parts was quite a burden and with the recession was not worth the time and effort so it was discontinued. With 3 ½ acres under glass Young's offers year-round plant bargains and a wonderful place to visit especially for children. They have hundreds of plants in season, garden supplies, hardware, lawnmowers, snow blowers and during the Christmas season they had a huge selection of everything Christmas. Then they had a fire which put them back quite a bit, but the competition with the big box stores did them in. Now Kutchy's produce has moved in. ^[109]

Cole Ind building has been taken over is now the 4th large Islamic center in the Warren area.

The 1928 Center Line Men's Club gathered books. Three women formed the Warren Community Library and housed in in the parlor of the Zorn house. Both libraries grew. The library plan placed a local library within 1 ½ miles of every home (walking distance) so children would have access to books. Soon we had Center Line,^[93] Whitman, Guest, Burnette, Busch, Miller. Now the Warren Library has over 267,800 items, Center Line 40,000, Macomb College 143,000 items and Internet, equivalent of millions of free books. This means that the you have much better access to the knowledge that has been published than in the past. These libraries also include a lot of entertainment media which are lacking in scholastic and moral content but are what the public wants. Much of the public is in the entertainment culture lifestyle. Not everything is or will be on the Internet. And there is still no substitute for curling up with a good book. This is still a wonderful needed, educational experience for children. Libraries and schools should make available video theater goggles with stereo sound that can simulate full screen Imax screens. How better for a student to learn about dinosaurs than to go on a virtual field trip to see videos about them. All this could be done with goggles and stereo head phones plugged into an inexpensive computer. This combination can also replace heavy expensive limited textbooks children have had to lug to and from school so children can learn at their own pace both at home and at school without having to carry heavy books. Many of us feel educational texts and materials should be placed on library, school and college websites and made freely available rather than have to spend hundreds on heavy expensive limited out of date text books. Below is old time 3D Stereoscope and modern 3D slide viewer.

Started 1954. South Campus
in Warren 1965

Children were taught to be responsible for their actions and adults were held to that expectation. Everyone pulled his own weight. It was workfare instead of welfare. Which we need today. Fathers supported their wife and children. People were aware of what was going on in their community, & helped neighbors if they needed help. The men were ready and willing to defend their country and did so. The community worked hard to create a better life for all. Ample for all was in fact created over time **to a point in the 1950s when Warren was considered the richest community in the USA.** ^[95]
